

WEEK - II REPORT

Activity 2.1 - Collect the relevant information, refer existing solutions

We went through the project description to deeply understand the project. Then, we collected some relevant resources by reading the articles and referring to some IEEE papers and did a literature survey on a few papers.

Activity 2.2 - Attend the training and practice exercises provided

All the members including the leader attended the class and practiced the exercise along with them and also the ones provided by them.
